

Immune anticancer medicine

Patent number: CN1205880
Publication date: 1999-01-27
Inventor: CHEN MING (CN)
Applicant: CHEN MING (CN)
Classification:
- international: A61K35/78
- european:
Application number: CN19960117419 19960123
Priority number(s): CN19960117419 19960123

Abstract of CN1205880

The immune anticancer medicine has in its components ginseng, Codonopsis Pilosulae, Astragalus membranaceus, licorice, Atractylodis Macrocephalae and other 29 Chinese medicinal materials. It contains plant hemagglutinin and plant polysaccharide components capable of activating lymphocyte and complement system and activated lymphocyte and complement becomes immunity anticancer cell or medium. The plant hemagglutinin and plant polysaccharide components can promote and regulate body's immunity and body's physiological function and thus strengthen anticancer ability.
